NEW ORLEANS CITY COUNCIL

2011 POLICY OVERVIEW
2010 LEGISLATIVE ACTION

A LETTER TO THE CITIZENS OF NEW ORLEANS

This year has been one of change and transition for the governing body of the City of New Orleans. Following winter municipal elections, a new City Council and Mayor were sworn in and seated in May of 2010. The new City Council's membership includes seasoned members elected to a second term, a veteran former State Legislator, a proven community leader and a well respected attorney. The members, as private citizens and elected leaders, have fought alongside neighbors, business and community groups and colleagues to ensure that the City's neighborhoods are safe and viable, that City government is transparent and accountable to citizens, and that the local economy continues to improve and become stronger.

Councilmembers represent geographically and culturally diverse communities, all with unique needs. As individual members, we do not always agree on the path to serving our varying constituencies or solving the particular challenges of each neighborhood. However, what we do share is a collective vision that utilizes best practices governing models that will ultimately provide fair and effective representation of every New Orleans citizen and every New Orleans neighborhood.

We know that the unified voice of the City Council, the legislative branch of government, can impact and change the direction of challenging community issues and foster and support innovative ways to live, work and do business in this great historic American City.

Through legislative action, we have witnessed change and reform in key policy areas including transparency and accountability; recovery and emergency preparedness; public safety and crime prevention; neighborhood and citizen engagement; and economic development and business growth.

Together, we pledge to continue that same course this year. Individually, and as a body, we will be especially vigilant to our city charter responsibility to review and approve the City's operating and capital budgets. Throughout the year, we will monitor expenditures for local government operations from allocation of resources to ensuring the progress and high performance of projects and programs.

It is our privilege to represent the citizens of New Orleans. Our past legislative and community work is chronicled in this document. We invite your review of the New Orleans City Council Annual Report: 2011 Policy Overview and 2010 Legislative Action.
